REMARKS

1920 CENSUS INDEX
DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

1. The first of these is the
fact that the number of
cases of the disease has
increased in the last few
years. This is due to the
fact that the disease is
now more common in the
tropics and subtropics.
The second fact is that the
disease is now more common
in the temperate zones.
The third fact is that the
disease is now more common
in the United States.
